

### ***What classifies as a “Specialty Blonding/foiling” Client?***

Pretty much any color that carries tonal value created through a multitude of techniques:  
*Highlights, Balayage, Teasylights, Dimensional Lowlights, Babyslights, Ombre.*

### ***How does the pricing work for “Specialty Blonding/Foiling”?***

Here is the gist of it. Blonding/dimensional color has come a longgggg way. What it means to get a “full highlight” or “partial” is not the same as it used to be. Back in the day it would be 6 stripes across the crown of your head, rinse you with purple shampoo and send you on your way.

It’s no longer like that.

Our expectations and hair aspirations are so much more in depth. We want “lived in color”, “blended”, “balayage”, “color melts”, “root smudges”, “money piece” ...do these terms sounds familiar?

All of those things listed above do not only take more time & product, they also require a lot more technique & hands on involvement.

### ***The pricing is based off of time & Product involved.***

*For those that have a strict beauty budget:* If what you are looking to achieve at your appointment is out of your budget, I will be happy explain what is possible within your budget along with setting up appointments that fall in that budget to get you to where you want to be.

*\*I would like to take this moment to point out that “lived-in” color/blonde is exactly that, “LIVED-IN”. Low maintenance results allow you to get longevity out of your hair. This means less frequent visits to the salon.*

### ***How do I know what “Specialty Blonding/Foiling” service to ask for when booking and what price to expect?***

Great question!

**For new clients:** Fill out the new client consultation form. There you will be able to upload photos of what you currently have along with what you are looking to achieve. You will also be able to tell me your hair history, what services you want done during your appointment, beauty budget (what you feel comfortable spending) and some other facts that will help me guide you to what is possible within your budget.

1. Each Blonding/Foiling service INCLUDES THE FOLLOWING: *a personalized consultation, specialty blonding/foiling, bond builder, toner/gloss, and Haircut or blow-dry.*
2. Blonding/Foiling services are NOT broken down by application technique (highlight, partial highlight, balayage etc.) They are broken down by the *amount* of blonding you are looking to achieve.
3. Prices reflect the amount of time/product
4. Extra time: \$40/half hour or extra product: \$20/ bowl
